CELL PHONE BUYING GUIDE

 Updated June 7th, 2010

Welcome!

Finding the correct cell phone for you or your department's needs can sometimes be a daunting task. This guide was assembled to help you navigate the process of selecting a mobile phone and plan for business or personal use. DePaul University currently has an agreement in place with AT&T Wireless that provides the University with discounts for cell phone equipment, accessories, and plans.

Assessing your need for a cell phone

There is no set standard for DePaul cell phones. You may use any type of device currently offered by AT&T wireless, <http://www.wireless.att.com/cell-phone-service/cell-phones/>.

Cell phones have vastly different purposes. Some users may only need access to voice calling, while other users may need email access or international calling in addition to normal voice calling. Assessing your need is instrumental to you finding the correct solution for your needs. Responsibly choosing your device will save your department hundreds of dollars per year.

Not all users need something as robust as a Blackberry or iPhone! Please choose your phone responsibly. There are a number of FREE phones available for users that only need voice dialing capabilities.

Pricing Examples

DePaul PDA Pricing	BlackBerry Curve 8320	BlackBerry 8820	BlackBerry Curve 8900	BlackBerry Bold	iPhone 3G 8GB
New IRU customer	\$ 79.00	\$149.00	\$149.00	\$ 299.00	\$ 99.00

All prices for phones and rate plans are subject to change. Please contact Technology Buyer in Procurement Services, at (312) 362-7510, or email procurement@depaul.edu

AT&T PREMIER (online access to administer your account)

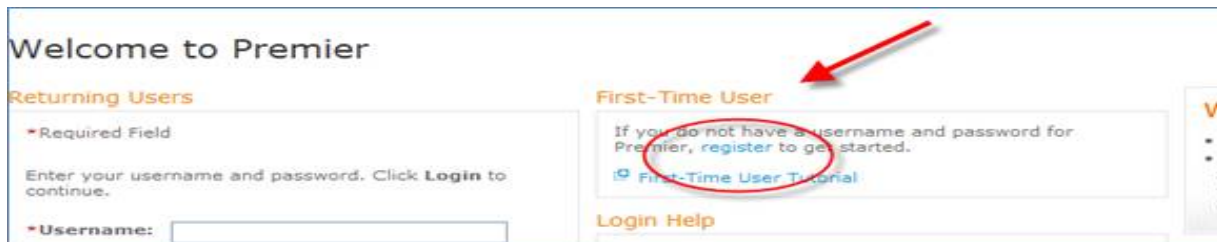

DePaul University is pleased to announce that online access to AT&T Premier is now available to all DePaul users attached to DePaul's CRU account (Foundation Account Number # 02406977).

AT&T Online Premier will allow you to :

- View & download copies of your bill.
- Set-up a recurring payment (Autopay).
- Change your account information. (Name / address)
- Activate & deactivate account features & services.
- Add new lines of service
- Buy accessories for your phone.
- Suspend your account (for lost/stolen phones)
- Request upgrades to your phone (if eligible)
- Manage/Consolidate other AT&T bills (budget managers only - this option requires set up by the DePaul Account administrator)

CREATING AN AT&T PREMIER ACCOUNT

- Please visit <https://www.wireless.att.com/businesscare/login>
- In the middle of the log in page you will have a first time user sections select register.

Click to register each line, enter in the cell phone number and a temporary password will be sent to the phone. Use that password to continue with registration.

The program Administrator must enter the final approval for the line. Typically this happens within 24 hours of you entering the request. If you have questions about the status of your approval please send an email to procurement@depaul.edu

HOW TO USE PREMIER / TUTORIALS

AT&T has created an excellent support resource that details each task that you may want to complete while using the AT&T Premier website. There are webcasts, and video tutorials available for some of the more complex tasks.

To access the AT&T support resource, login into your Premier account, then click on the blue "support" tab located on top of your Premier homepage.

CELL PHONE BUYING GUIDE

Updated June 7th, 2010

If you'd like to participate in formal AT&T Premier training, AT&T offers weekly training via a short interactive online class. For information about registering for this training, please contact Technology Buyer in Procurement Services, at (312) 362-7510, or email procurement@depaul.edu

ORDERING EQUIPMENT & ACCESSORIES VIA AT&T PREMIER

AT&T Premier will allow users to order DePaul preferred devices and accessories.

You may be prompted to

To ensure adherence to the purchasing guideline, all orders placed via AT&T Online Premier are subject to final approval by the program administrator.

CONSOLIDATE YOUR DEPARTMENT'S CELL PHONE BILLS

Paying several different AT&T each month can be time consuming. However, with AT&T Premier you now have the ability to consolidate your departments bills onto a single billing account. Consolidation also gives the budget manager the ability to manage their department's user accounts via the web portal instead of calling into AT&T Business Services.

If you are interested in migrating your department to this feature please contact the Technology Buyer in Procurement Services, at (312) 362-7510, or email procurement@depaul.edu

Make and Model of Phone Desired

This guide shows our most common cell phone options for DePaul University. In regards to Smartphones (phone + email + PDA) DePaul IS only supports RIM Blackberry and the Apple iPhone. **However, if you don't need a Smartphone you are free to select any phone that AT&T carries on their website via, <http://www.wireless.att.com>.**

- Model Desired? _____ (i.e. Black Berry Curve 8310)

Rate/Data Plan

- Plan Desired? _____
(If nothing is specified you will be given the standard plan. (450 peak minutes, 5000 night and weekend minutes, and unlimited data...~ \$67/mo)

Text Messaging (SMS)

The default option here is no.. You receive unlimited email, and free AT&T to AT&T calling as part of your contract. With no plan selected, SMS texts are billed at a rate of .25 cents each. See the attachment (pg. 6) for text messaging options.

- Yes / No
(if yes, please specify amount of texts per month desired, see page 6 for listing of packages)

The Phone Recipient

- Name
- Address (w/ suite number)
- Phone extension
- DePaul email address

The Billing Contact (only if different than the phone recipient)

- Name
- Address (w/ suite number)
- Phone extension
- DePaul email address

Group Plan (if applicable)

If you already have a DePaul cell phone, or group minutes plan, and would like this device added to an existing bill, please provide either the phone number or billing account number of the one of the phones on the existing plan.

- _____

Delivery Options

Would you like overnight delivery? An additional \$15 fee will apply.

- Yes / No

CELL PHONE BUYING GUIDEUpdated June 7th, 2010**Personal Phones - Faculty/Staff discount program (DePaul IRU)**

DISCOUNT INFORMATION

AT&T Mobility offers discounted cellular phone services and accessories to university faculty, staff and students. Discounts typically include:

- 10% service discount
- 20% equipment discount
- 20% accessory discount
- Ordering online offers additional benefits, which may include discounted equipment prices, waived activation fees and other savings

OWNERSHIP INFORMATION

By ordering the phone through this method, a few things become true;

- You own said phone, it's your property. If you leave the university the phone is yours.
- You assume full financial responsibility for said phone.

TO PLACE YOUR ORDER

1. Proceed to <http://discounts.depaul.edu>
2. Under the PC & Electronics tab, select AT&T Mobility
3. Follow the directions on the screen

IMPORTANT NOTES

1. Personal Phones are not eligible to be connected to the university's email servers.
2. All orders must be placed using the online portal, the link can be found on the [DePaul discounts page](#).
3. **The employee discount program is a service that is managed entirely by AT&T. DePaul Procurement Services is not able to access or modify any information regarding any employee's personal phone service acquired through this program. All inquiries should be directed to AT&T Customer Service.**

However, any complaints or concerns about quality of service should be reported via email to Procurement Services , procurement@depaul.edu

AT&T Customer Support: 1-800-331-0500

Standard Voice and Data Plans

Below you will find information on our basic and most common plans available to DePaul corporate users.

Things to consider when selecting voice and data plans

- AT&T-to-AT&T calling is free and unlimited.
- To be eligible for discounted equipment pricing Blackberry/ iPhone must be activated with **both** a voice and data plan.
- Text-Messaging is non-standard by default. You will need to add text messaging package if that service is desired.

Voice-Only Plans

- Voice - Nation 450 w/Rollover with 5000 Night and Weekend minutes..... (\$31.99 / month)
- Voice - Nation 900 w/Rollover & Unlimited Night and Weekend minutes..... (\$47.99 /month)

DePaul's Most Common Voice and Data Combo Packages (for Blackberry or iPhone users)

1. The most common plan for the typical DePaul user;
 - Voice - Nation 450 w/Rollover with 5000 Night and Weekend minutes..... (\$31.99)
 - Data - Blackberry Enterprise Unlimited Add-On..... (\$36.00)
 - Per month charges start at \$67.99**
2. For users that need more monthly talk time than average;
 - Voice - Nation 900 w/Rollover & Unlimited Night and Weekend minutes..... (\$47.99)
 - Data- Blackberry Enterprise Unlimited Add-On..... (\$36.00)
 - Per month charges start at \$83.99**

Nights and Weekends minutes: Nights are 9:00 p.m. to 6:00 a.m. Weekends are 9:00 p.m. Friday to 6:00 a.m. Monday.

Text Messaging Add-Ons

Text messaging is **not** a default option; if you send SMS texts you should select a text messaging plan below.

- iPhone Text Messaging Unlimited (\$20.00/month)
- iPhone Text Messaging 1500 (\$15.00/month)
- iPhone Text Messaging 200 (\$5.00/month)

Standard International Calling Plan

For the caller who regularly makes calls outside of the country (Calling from the US to abroad)

- Voice - Nation 450 w/Rollover with 5000 Night and Weekend minutes..... (\$31.99)
- Data - BlackBerry International Add On..... (\$51.99)
- International Roaming (AT&T World Traveler)..... (\$5.99)**

Per month charges start at \$71.00

These charges do **not include the per minute int'l long distance roaming rates, for a list of current roaming rates please visit, <http://www.wireless.att.com/learn/international/roaming/international-roaming.jsp>. You'll want to refer to the AT&T World traveler rats.

CELL PHONE BUYING GUIDE

 Updated June 7th, 2010

AT&T USB Laptop Wireless Connect Cards

The cards below will allow you to connect your laptop to the internet from anywhere you can get a cellular signal

AT&T USBConnect Quicksilver

FREE*

- Four click swivel mechanism to allow flexibility for multiple USB port layouts
- USB plug-and-play
- Seamlessly works between AT&T's 3G BroadbandConnect and EDGE networks
- Weight: 1.2 ounces

AT&T USBConnect Mercury

FREE*

- Mobile broadband performance on the nation's fastest 3G network
- USB plug-and-play installation
- Integrated microSD card slot for a file transfer and storage solution
- Weight: less than 1 ounce

Laptop Wireless Connect Data Plans

Plan prices based on 2 Year contract commitment

Plan	Included Data	Price
DataConnect 10MB	10MB per month	\$16 per month
DataConnect 20MB	20MB per month	\$32 per month
Data Connect 5GB	5GB per month	\$48 per month unlimited AT&T hotspot access

- Procurement Services Strongly recommends going with the DataConnect 5GB plan, to avoid unexpected data overages that can result in unexpected charges.
- The 5GB plan also allows you the ability to connect (without charge) to AT&T Wi-Fi hotspots located across the country. A complete listing of AT&T Wi-Fi hotspots can be found at <http://www.att.com/attwifi/locations>

*pricing for new and upgrade-eligible customers.
All prices are subject to change.

Using Your DePaul University Cellular Device Internationally

When traveling abroad, DePaul employees should exercise caution while using cellular devices (including phones, laptop data cards, etc). Using more data than what is allocated by your plan can result in astronomical charges. Streaming a single movie on your laptop or iPhone over a cellular network without an international data plan can result in a monthly bill totaling well in excess of \$20,000.

Please remember that all standard DePaul laptops have wi-fi antennas built in. Using this standard feature you can access wi-fi hotspots in your hotel, coffee shops, airports, etc. Sometimes there is a nominal fee for this access, but in many cases this access may be free.

At no point should you be using an AT&T laptop connect card to do any major computing work while traveling internationally! If you are ever in doubt about whether your AT&T laptop card is being used to access the internet, remove it from your laptop and put it in your suitcase! ☺

To help you prepare for your upcoming international travel, Procurement Services has the following tips for each of the major types of AT&T devices in use:

Blackberry Phones (DePaul's Preferred International Device)

There are international data plans available for blackberry devices that will allow you **unlimited data use**, while traveling abroad. The Blackberry devices are the only AT&T cellular devices that have a plan for unlimited *international* data use.

Prior to leaving the country you should call AT&T Business Services 800-331-0500, or login to your AT&T Premier account and make sure that the following plans are implemented on your account.

1. For discounted int'l voice calls, initiate AT&T World Traveler (\$5/month)
2. For int'l data, activate BlackBerry International Plan Add On (\$64 /month)
3. After changes are made. Power cycle your device (turn off, then back on)

Once you return from your travels, you can remove these features by calling the Business Services number above. Just be sure to replace the int'l data plan with the enterprise unlimited data plan for your device.

iPhones and All Laptop Connect Cards

iPhones and laptop data connect cards can eat through an extraordinary amount of data, even when they are not being used, and can leave you sticker-shocked when you receive your monthly AT&T bill.

There are only 5 international data plans available for iPhones and Laptop Connect Cards. All are expensive, and none offer a robust solution for data. If possible you should avoid using these devices altogether when travelling abroad. We have seen departments that incur astronomical monthly charges while using laptop connect cards internationally.

CELL PHONE BUYING GUIDEUpdated June 7th, 2010

If you must use an iPhone or laptop connect card, before leaving the country you should call AT&T Business services 800-331-0500, or login to your AT&T Premier account and make sure that the following plans are active on your account.

1. For discounted int'l voice calls, activate AT&T World Traveler (\$5/month)
2. For int'l data, activate one of the following data plans
 - a. DataConnect 20MB Global (\$25 per month)
 - b. DataConnect 50MB Global (\$60 per month)
 - c. DataConnect 100MB Global (\$119 per month)
 - d. DataConnect 200MB Global (\$199 per month) <-*DePaul Preferred*
 - e. DataConnect 500MB Global (\$499 per month)
3. (iPhone users) On your iPhone. Go to Settings > General >Network. Then make sure that the Data Roaming switch is turned to the OFF position.
4. After changes are made. Power cycle your device (turn off, then back on)

Once you return from your travels, you can remove these int'l features by calling the Business Services number above. Just be sure to replace the int'l data plan with the enterprise unlimited data plan for your device.

Important AT&T Phone Numbers & Web Links

AT&T Int'l Wireless Care 001-916-843-4685

AT&T Business End User Care 800-331-0500

- To create a AT&T Premier login, so that you can administer your AT&T account online please visit.

Changing Financial Responsibility

In order to move your personal phone over to the DePaul corporate account (i.e. for direct DePaul email access from your device), you must initiate a change of financial responsibility. Making this switch will make the following conditions true.

- Your phone will be moved onto the DePaul CRU (Corporate Responsibility Account) account. For more information about the CRU plan and pricing please view page 2.
- Your phone *number* will become property of DePaul University. In the event that you leave DePaul, you must contact the technology buyer to request to have your number released from the DePaul Corporate (CRU) account. The buyer will make an attempt to release your number, but there *is absolutely no guarantee that this process can be completed!*
- Any new device that is purchased during this (or after)move, is the property of DePaul University and must be returned to DePaul University upon your leaving the university, or at the end of the device's useful life, regardless of condition.
- You will no longer have web access to view/modify your account. All service related issues must be taken care of by calling AT&T business services. However, we are anticipating full web access for DePaul wireless users by Spring 2010.

In order to initiate this change you must complete the following steps.

1. You must call into AT&T business services (800.331.0500) to flag your current account for a change of financial responsibility. Basically, you must tell AT&T that is okay for DePaul University to take control of your account.
 - a. When calling, be sure to have your current phone number and billing account number available.
 - b. It is always helpful to request some sort of email confirmation from AT&T that this change has been noted on your account.
2. Once you have received confirmation from AT&T that your account has been flagged. Please complete the following questions and forward them onto the Technology Buyer in Procurement Services, Procurement@depaul.edu.
 - **Name -**
 - **DePaul Office Address (w /suite number) –**
 - **DePaul Email Address -**
 - **DePaul Desk Phone Extension -**
 - **Current Billing Account Number -**
 - **Current Wireless Phone Number -**

If your department currently has a AT&T Billing Account that your new number should be added to, please include the following information.

- **Existing Billing Account Number –**
 - **Any Phone Number on that Billing Account –**
3. In the event that you are going to be requesting a new phone. We must wait until the switch has been confirmed by AT&T. This can take up to 7 business days. Once the change has been confirmed, we can begin the process of ordering your new phone. (see page 4)

Frequently Asked Questions

Q: My phone does not work! How do I get it repaired?

Your device also comes standard with a 1-year replacement warranty. In order to initiate a service ticket you should contact AT&T Warranty Support by calling 800-801-1101. If you cannot get at repair through AT&T, we will have to order a new one. See page 4.

Q: I've just received my phone. What do I do next?

Your phone should be activated and ready to use out of the box. Try placing a call. If that does not work follow the activation instructions located on the card inside of the box. **Anyone using a Blackberry or iPhone needs to call DePaul TCC x2-8765 to have their DePaul email setup.**

Q: I want to change features of my plan (int'l calling, add/remove features)?

Q: I have a question about my AT&T bill?

Q: I want to set up auto-billing. How can I start this?

Q: I want to upgrade my device?

All issues above can be resolved by calling AT&T Customer Support

AT&T Customer Support: 1-800-331-0500

Q: What if I already have an AT&T phone, and would like to use it as my primary work cell phone.

This would require a change of financial responsibility. You will be giving all phone ownership rights to the university. To find out more see the "Changing Financial Responsibility" section of this guide..

Q: I don't like the phone I ordered? Can I exchange it?

All AT&T phones come with a 30 day no-questions-asked return policy. Credits are issued 2-3 billing cycles after your return is received. To initiate a return please call AT&T Customer Support 800.331.0500. **Please print and retain a backup copy of your return label!**

Important Notes

- Any type of water damage will void your warranty! You will have to purchase a replacement phone at full retail price.
- Procurement is not responsible for the repair of your phone. All repair issues must be directed to AT&T Warranty support. If you cannot find a solution, then contact Procurement Services
- Old phones are property of the university and should be returned to Procurement Services via the Salvage program.
